

John O' Groats Lands End and the Three Peaks

YES WE HAVE FINALLY DONE IT cycled from John O' Groats to Lands End and climbed the three peaks, over 1100miles in 14 days.

We started on the 21 May and after 14 days completed it at 1000hr on the 4 June as planned.

The weather was not exactly in our favour for most of the trip with 130 mph winds on the way down from Ben Nevis, being blown off your feet exciting!!! Not to be done again.

With head winds of between 35 and 70mph for most of the cycle, two buckled wheels, rain and sleet, all made for an exciting and a character building trip !!!!. We met some fantastic people and saw beautiful countryside. What a fantastic experience, a really good challenge and GREAT FUN.

As we came into Lands End it was a surreal moment. The sun was shining and the wind was light for a start!!! And we could not quite believe we had completed our adventure, after all those miles. BUT It was all WORTH it we have raised over £4000 to date for The Rifles, Macmillan Cancer Support and Dystonia Society and hopefully more to come in.

So from Myself Nick Bryan and Rob Wiffen

THANK YOU VERY MUCH FOR ALL YOU'RE SUPPORT AND DONATIONS.

If you have not donated to the charities and would like to you can donate on one of the [Just giving sites](#) or send a cheque made payable to [End To End NJB & RW and send to](#)
